REASONS FOR ALLOWANCE

1. Claims 1-5, 8, 10, 11, 15-20, 22, 24-26, and 28 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1, 4, 8, and 10, wherein the claimed invention comprises in claim 1, wherein the light is illuminated into said granular gas in a direction parallel to surfaces of said electrodes which face said granular gas; in claims 4, 8, and 10, wherein, by means of additional limiting electrodes an area provided by means of control electrodes for forming said granular gas is limited to the exterior, whereby a voltage is applied to said limiting electrodes and/or by means of said limiting electrodes, an electrical field completely surrounding said granular gas is produced such that said electrically charged particles and/or said granular gas are kept in an area between said control electrodes, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brandi N. Thomas whose telephone number is 571-272-2341. The examiner can normally be reached on Monday - Thursday from 6-4:30.
